

The Charging Reference Group is a group of disabled people and carers in Norfolk

We have been working to help Norfolk County Council understand our lives better

We are allowed to say how we feel to the Council

The Council is learning to listen well to us

In the next few months the Council needs to develop a new policy for how disabled people are charged for services

We want to help the Council by telling them what we think about their plans

We are looking for someone to be the Chair of our group

The Chair should be someone who understands about being disabled or caring for someone who is disabled

They should be someone who can help us to listen to each other and work together well

They need to help us choose what to talk about and what to do

Confident

They need to be confident to work with Norfolk County Council

They might have to tell Norfolk County Council things it will not like to hear

The Chair will need to spend about 3 days per month on the role

They will work with the Facilitator

The Chair will be paid £200 per day plus reasonable expenses

Do you know someone who would be a good Chair for our group?
